

Project & Report AI Disclosure Statement

Name of Student: Arnav Jain **Roll Number:** BT2024233 **Task Set:** B — Geography of Exposure (Figures 8-12)

1. Code Generation and Modification

Tool(s) Used: Claude (Anthropic) — used in a separate, parallel repository (pythagoras-das732-a1) while this repository (Dv_Assignment_1, authored primarily by Kalpit Phogat) was being built independently. No code in `code/task_b_geography.py` or any other file in this repository was generated by my AI session.

Specific Applications: - None applicable to this repository's code

Prompts Used & Modification Level: Not applicable — the Task Set B code (`task_b_geography.py`) and its outputs (Fig8-Fig12) in this repository were authored independently of my AI session. I reviewed and take responsibility for understanding this code and its outputs as they pertain to my assigned task set.

2. 3D Modeling and Assets

Tool(s) Used: Not applicable.

Specific Applications: - None

Description of AI Involvement: Not applicable.

3. Report Writing and Documentation

Tool(s) Used: Not applicable to this repository's report — `DAS732_A1_Report.tex` was authored independently of my AI session.

Specific Applications: - None applicable

Description of AI Involvement: I used an AI assistant (Claude) to help set up and manage a separate repository copy of this assignment before this repository was adopted as the team's final submission; that assistant did not draft any content in this repository's report.

4. Academic Integrity & Verification

Core Logic & Authorship Statement: I certify that I have reviewed the Task Set B analysis, figures, and report section (Figures 8-12) attributed to me, understand the methodology used, and take responsibility for the accuracy and interpretation of the findings in my task set as presented in this submission.

Link to Chat Transcripts (If applicable): Not applicable.
